The same low price to  
every man every day

## Clothcraft Clothes

Our Fixed Year-Round Price  
Means Big Values For Every Man

If you stop to think, you'll realize that a uniform retail selling price is the basis of trade morals—IT STANDARDIZES VALUE.

### Our Right Selling Plan

goes farther in giving you price uniformity than any other method. You get the benefit of a fixed year-round price; YOU'RE ASSURED OF AN EXACT VALUE—IT'S ALWAYS A BIG ONE.

### No More Clearance Sales

Here, and this is why:

You don't get the fairest kind of a deal in buying where there are fluctuating prices. It's like primitive barter; THE DEALER GETS WHAT HE CAN, INSTEAD OF GIVING YOU ALL HE CAN.

When you get a look at these clothes

From \$10 to \$18.50

you'll be quick to see the wonderful values our "Right Selling Plan" offers.

## WITH THE PUPILS OF THE CITY SCHOOLS

The annual track class contest for the championship was held last Friday by the different classes of the high school. The senior class won the championship and the Juniors came a close second. Owing to the breaking of the javelin, the personal winner of the meet was not decided, but stands at present a tie between Lee Maddux and Roland Koenig. Lee will probably win this honor as he is considered to be the most efficient in this of any in the school.

The meet was the best that has ever been given here and the school expects to make even a better showing than they did last year against the out of town teams. Payette will be the first opponents of the Ontariotes, and it is generally considered that Payette has one of the best athletes in this vicinity.

Monday morning the high school president gave out ribbons to the winners of the class meet.

Next Friday the annual carnival will be given by the high school and the entertainment is being looked forward to by many, as it promises to have several new features such as good music and athletic performances of various kinds besides all the improvement on enjoyable stunts hitherto given.

Some of the cartoonists of the school have been busy for some time making drawings to advertise the event, and some real genius has been shown in some of the pictures.

The carnival will consist of musical entertainment, athletic entertainment, comic stunts and eats.

### VALLEY VIEW HAPPENINGS

Mr. and Mrs. Jack Harlow were callers at Chas. Johnson's Thursday evening.

Mrs. B. Frazier's many friends will be glad to know she was well enough to attend services at the school house Sunday afternoon.

Miss Lillie Downs was visiting Miss Stella Rees last Tuesday.

Mr. Everett Wisdom of Ontario has been doing some finishing work on Mr. Chas. Johnson's house the past week.

Mr. and Mrs. C. E. Rees went to Emmett, Idaho, to visit his brother and wife at that place. Grandma Rees accompanied them home Monday evening.

Had a pleasant surprise last Thursday evening. Rev. D. Loree stopped over on his way home from Cove, Oregon, where he had been conducting meetings, reported twenty-five conversions. Everyone was very glad to see him at Valley View again. Word having been sent over the neighborhood, there was a nice crowd to hear the excellent sermon which he delivered at the school house.

Miss Edna von Readman was a guest of Miss Ruth Stewart last Tuesday evening at the home of W. G. Armstrong.

Mr. G. W. Kaylor and W. G. Armstrong returned last Monday, from a trip to Mud Springs, where they were looking after their cattle.

Rev. W. N. Brown will preach Sunday afternoon at three thirty o'clock.

## WITH THE CITY CHURCHES

### BAPTIST CHURCH NOTES

Last Sunday was a good day for us. Over two hundred dollars was raised on the improvements of the property.

Rev. D. Loree preached at the evening service to a crowded house. The sermon was much enjoyed by all.

Topics for next Sunday. 11 a. m. "The Lukewarm Church." 8 p. m. "The Man who Traded Property for Greater Possessions."

These addresses will be of interest to everybody. An invitation is extended to the public to attend these services.

Rev. D. Loree left Monday for the southern part of the state around Klamath Falls and Lake View country for his future work as Colporteur of the American Baptist Publication Society. Mr. Loree has spent a good portion of his time in the Snake River valley for a year and a half. He leaves a host of friends who wish him God speed in his new field.

Walter M. Berry, son-in-law of Rev. and Mrs. D. E. Baker arrived in Ontario Friday morning of last week on his return from Washington, D. C. He went to Washington the first of February as an employee of the government but so disliked the country that he returned satisfied to make his home on the Pacific coast. He and Mrs. Berry left Saturday morning for Portland to his old position which he had held with the Portland Gas Co. for over seven years.

# Everything From Head to Foot For the Girls

Why do so many mothers buy the boy's clothes, and make the girl's clothes?

The principle reason is they can not get what they want for the girl ready-made, and at the same reasonable price boy's clothes are sold. I have made that possible this year in my complete line of

### GIRL'S READY TO WEAR

Girl's Spring Coats in check blue serge and silk at \$3.50 to \$5. Middies and Middy Dresses, sizes 6 to 14 at 75c to \$1.25. All kinds of Muslin Underwear, White Muslin Knickers, sizes 2 to 14, at 20c; dress and skirt, 25c; skirts on bodice, 50c. Princess' slips, size 8 to 18, at \$1. Big Aprons, 35c and 45c. School hats in straw and white jaberline, at 25c and 50c.

### SHOES AND SLIPPERS

I believe without doubt I have the best assortment of Girl's Shoes and Slippers in this part of the country. Shoes \$1.00, \$1.50 to \$2.00. Slippers \$1.00, \$1.25 and \$1.75. Sizes 5 to 8, 8 to 11 and 11 to 2. Come in, let us show you this line whether you buy or not.

## FARM MANAGEMENT TO BE TAKEN UP

There are a great many different ideas advanced regarding the methods that might be pursued to increase the income made on the farms here in Malheur County. There is so much uncertainty as to the reasons for these different ideas, that it has been determined to have Mr. H. F. Keyes from the Extension Service of the Oregon Agricultural College to come into this county, April 24th, and remain until May 13th. During this period we hope to visit about 100 representative farms and find out as closely as possible all of the incomes and expenses for the last year.

Many questions will be asked. The value of land, the yield of each crop and cost of production, and the amount received for the same. The amount of livestock, value, cost of maintaining, and producing. The expenses for seed, labor, machinery, taxes, stock, insurance etc. In fact everything related to the business end of farming will be put in figures if possible.

All answers will be strictly confidential, and the information given will be used in making up the averages figured out for the different classes, except in the tabulated record that will be returned to each individual farmer in which his own individual record will be given back, but to no other person.

We hope to discover some facts that will lead some of the farmers to change their systems of farming for more successful systems. We wish to discover which type of farm can raise hogs, which can dairy, and what proportion of the farm can be in pasture. We want to find out if certain kinds of livestock are more profitable than others, and what combination of crops are best suited to go with them.

This work has proven of great value in the east and in the Willamette valley, and it is hoped that everyone will co-operate in helping the good work along. Many other counties have asked for this work, while only a few of them could get it done, and due to the fact that this is a new section comparatively speaking, to most

sections of the state, this county was favored.

W. W. HOWARD,  
County Agriculturalist.

### SHEARS FOR DOCKING LAMBS

On a recent visit to the Oliver lambing sheds near John Day members of the local Forest force noticed that the advantages in the use of docking shears in marking lambs are so great that in their opinion the universal use of this method is only a matter of a short time. These shears are made of heavy steel and are kept heated, the purpose being to cauterize the wound and prevent bleeding. Such docking shears can be made by any blacksmith. When properly used the operation is entirely bloodless. Experiments carried on by the United States Department of Agriculture in the use of this method resulted in a net gain of two pounds per lamb, thirty days after the operation, over lambs docked by the old method and allowed to bleed.

Among the prominent sheep men of

Grant county, who have adopted this method, and who are enthusiastic over its results, are J. C. Oliver and sons. This method of docking lambs is sensible both from an economic and humane standpoint, in that it practically eliminates bleeding and reduces the chances of blow flies and other pests getting into the raw sores.

Tammany's attitude continues to be considered in spite of the reports which have been issued from time to time in the past that its power was at an end.

### DR. GILBERT TO SPEAK

Dr. Gilbert, head of the educational department of the State University, will talk at the Commercial Club rooms tomorrow night at 8 o'clock. His subject is, "Education and Public Opinion."

The evening's entertainment is given under the auspices of the Ontario Woman's Club. Everybody is cordially invited.
